

## Experience

### Front End Developer

IM Republic • Belgrade

05/2020 - Present

- Worked alongside senior devs on local library used in all of the projects.
- Optimized, debugged and tested JavaScript code.
- Introduced multiple modern features and code practices which resulted in faster load times and overall better app performance.

### Front End Developer Intern

Cubes d.o.o. • Belgrade

10/2019 - 05/2020

- Created HTML/CSS templates based on the designer's design.
- Assisted senior developers in building UI components and incorporating services from backend.
- Made an e-commerce web app, by myself using ReactJS, Redux and RestAPI's.

## Interests

Besides coding, i love learning new stuff, usually via podcasts, youtube etc. I'm really into sports, especially football, my favorite teams are Red Star Belgrade and Liverpool FC. One of my favorite things to do is to spend time with my lovely dog, either walking him, or just petting him until he falls asleep (he snores a lot ...).
